

EPA's Renovation Repair & Painting (RRP) Rule

Join us Wednesday, February 17th for an evening with Ben Morey on the EPA's New Renovations Repair and Painting Rule (going into effect April 22, 2010) that will affect ALL FIRMS performing renovation, repair or painting work.

Ben Morey will outline the details of the new rule and go through the certification needs of each firm in order to comply. Firms who work without certification are subject to fines up to \$37,000 per incident, so it is imperative to be informed.

Also, find out about upcoming training sessions hosted by the National Association of Home Builders (NAHB).
